

New Artisan™ Digital Sound Level Meter

This economical Artisan™ instrument is ideal for general purpose sound level measurement. Point and measure. The portable design allows it to be carried easily to the site to be monitored. The meter features a combination digital and graph display.

The digital display of sound level reduces the variation of analog readings and allow you to monitor the subtle changes in the environment. Use the RECORD and HOLD features to capture and review readings. The A & C weighting scales allow you to track the source of the noise – is it from low frequency or high frequency sources. The analog output feature allows recording of the various sound level measurements. 3-1/2 digit LCD display. ABS housing. One year warranty.

SPECIFICATIONS

Measurement Range:	(6 ranges - 50 dB increments)
A weighting:	40 to 130 dB
C weighting:	45 to 130 dB
Resolution:	0.1 dB
Accuracy:	±2 dB (94 dB, 1 kHz)
Frequency range:	300 Hz to 8 kHz
Update:	every 40 ms
Analog Output:	0.707 vrms (@FS)(ac)
Operating Temp.:	0 to 50°C (32 to 122°F)
Operating Humidity:	10 to 90% RH, non-condensing
Storage Temp.:	-20 to 60°C (-4 to 140°F)
Microphone:	10 mm dia. electric condenser
Auto shutoff:	after 20 min of non-operation (disable features available)
Power:	9 Volt battery (approx 30 hours) Vac wall mt power supply optional
Dimensions:	182 x 71 x 30 mm (meter only) (L x W x D) (7.2 x 2.8 x 1.2 in.)
Weight (meter):	185 g (6.5 oz)
Shipping Wt:	0.45 kg (1 lb)

Low-Priced!
40 to 130 dB!
